← *From This To This* →

*Extremely Durable,
Highly Reflective Finishes*

*Custom Dyes and Colors
Also Available*

PRODUCT	TYPE	DESCRIPTION
Dragon Cure & Seal	Water Based Epoxy 200 Sq Ft/Gal	Use over fresh concrete as the curing compound - good chemical resistance may also be applied 28 days later, but an acid etch is mandatory then
Dragon 110	50% Solids Epoxy 200 Sq Ft/Gal	8 hour pot life; excellent for sealing concrete floors for light duty or sealing Dragon 140. Good chemical resistance.
Dragon 100	100% Solids Epoxy 175-200 Sq Ft/Gal	30 minute pot life; good overall primer & can be mixed with cabosil to create mayonnaise consistency to fix cracks, etc.
Drayton 120	100% Solids Epoxy 80-100 Sq Ft/Gal	Clear or pigmented; use clear with color quartz for decorative floors or pigmented version to coat floors; light to medium duty floors; light impact
Dragon 150	1/8" SelfLeveler 60 Sq Ft/Gal	Epoxy topping that flows easily into place; use a gauged rake & spiked roller -levels well at 1/8" thickness; good impact & chemical resistance
Dragon 140	1/4" Epoxy Trowel-On 65 Sq Ft/Gal	Heavy duty epoxy topping for harsh traffic & impact; good chemical resistance can be screeded & toweled into place; minimum 1/4" thick applications
Dragon 310 CRU	65% Solids Urethane 300-330 Sq Ft/Gal	Light, stable topcoat; excellent chemical resistance; good topcoat for all epoxy floors except when floors will be under water frequently
